

J35R

HIGHLY MOBILE COMPACT CRUSHER

The McCloskey™ J35R recirculating compact Jaw Crusher combines the productivity of our J35 with the versatility of a full screening and recirculating system, suited particularly to construction and demolition recycling, asphalt recycling, and aggregates

This highly mobile crusher moves nimbly around in small spaces, and continues moving while crushing. The J35R's small footprint is uniquely suited to the demolition and asphalt recycling, aggregates and smaller scale construction projects. Less than 2.5m wide, the crushers can be transported easily from site to site.

The new line boasts flexibility as well Not only can the J35R continue crushing while moving, it can convert to a recirculating jaw crusher in under one hour.

RECIRCULATING SYSTEM

Recirculation conveyor allows operators to produce a crushed and screened final product with one machine.

LARGE FEEDER

One piece vibrating grizzly feeder with 3.6 yd³ (2.75m³) volume capacity. The J35 features manual and remote adjustable speed.

HYDRAULIC DRIVE CRUSHER

34 x 25.6" feed opening to hydraulic drive crusher more power, along with better fuel efficiency and lower fuel costs.

HIGHLY MOBILE

The J35R can easily crush and move at the same time, ensuring maximum mobility on project sites. A two speed system is selectable at the control panel with smooth start/stop.

BIG POWER - SMALL FOOTPRINT

Robust and fuel efficient 218Hp (162kW) Volvo engine brings all the power you need to your project.

Engine	218 hp (162 kW) Diesel
Transport Height	9' 9" (2.982m)
Transport Length	30' 7" (9.315m)
Transport Width	8' 2" (2.486m)
Weight - w/ magnet & side conveyor	52,580lb (23,850kg)
Crushing Chamber	35" x 20" (890mm x 500mm)
Stockpile Height - Main Conveyor	9' 10" (3.006m)
Stockpile Height - Side Conveyor	8' 6" (2.583m)
Grizzly Feeder	82.8" x 166.5" (2101mm x 4230mm)
