

# R155

## HIGH ENERGY DURABLE SCREENER

The McCloskey R155 High Energy Screener is a tough, robust screening tool designed to cope with the heaviest of applications. New for this R155 scalping screener are hopper extensions and an extended tail conveyor. This provides maximum load flexibility to customers and accommodates a larger variety of loaders and can work in a variety of sites around the world.

No More Slow Loading! The R155 is designed for use with larger loaders. The 15ft target is 25% larger, allowing for more material and no spillage, making this R155 an excellent mobile solution for materials handling operations.

A perfect match for crushing spreads, in the two product position the extended tail conveyor will increase the discharge height 9" and feed directly into a C38 or C44. In the 3 product position the conveyor has 2' more discharge height & will feed directly into various models of cone, jaw and impact crushers.

### SCREENBOX

High Energy 5' x 16' screenbox delivers the highest product capacity.

### 15' HOPPER EXTENSIONS

A larger 15ft wide hopper designed to be used with larger loaders, allowing for more material and no spillage.

### EXTENDED TAIL CONVEYOR

The larger tail conveyor allows for an increase discharge height and feeds easily into various crushers.

### WIDE FEED OPENING

Allows for free flow of material and high volume capacity.

### HEAVY DUTY BUILD

One of the most robust and durable machines on the market, the R155 is built to excel at the toughest screening jobs.

Engine	130 hp (95 kW) Diesel
Transport Height	11' 2" (3.40m)
Transport Length	50' 2" (15.30m)
Transport Width	9' 6" (2.90m)
Weight - Belt Feeder	65,830 lb (29,860kg)
Weight - Apron Feeder	71,870 lb (32,600kg)
Stockpile Height - Tail Oversize Conveyor	14' 10" (4.52m)
Stockpile Height - Side Fines Conveyor	13' (3.96m)
Stockpile Height - Side Mid Conveyor	11' 10" (3.60m)
Screenbox Dimensions	5'x16' (155 ft <sup>2</sup> )
