ST100TF

HIGH CAPACITY FEEDER STACKER

McCloskey International’s heavy duty high capacity feeder stacker the ST100TF is designed to deliver enhanced handling and stockpiling of a wide range of materials across industries including aggregates, composting, landscaping and mining. The ST100TF is an excellent alternative when a traditional direct load stacker may not be the right match for the material, and offers an economical yet highly productive option to the larger TF80.

The ST100TF features a large capacity hopper (5.75 cu.m. or 7.5 cu. yd.) with adjustable height, ensuring optimized operational efficiency on the job. The design reflects feedback from customers in a cross-section of applications and industries, and McCloskey International’s commitment to deliver the best products based on that input.

**Engine - Power Unit**
- Diesel

**Transport Dimensions**
- Transport Height: 11’ 6” (3.51m)
- Transport Length: 78’ 5” (23.91m)
- Transport Width: 8’ 5” (2.6m)

**Stockpile**
- Stockpile Height: 41’ 10” (12.77m)
- Stockpile Capacity: 4,927 yds³ (3,766 m³)

**Production**
- Production: 800 US TPH (725 mtph)

**Belt**
- 36” - HD 3 ply
