

ST80TF

ALL-TERRAIN RADIAL FEEDER STACKER

McCloskey International's heavy duty high capacity feeder stacker, the ST80TF, is now designed to deliver enhanced handling and radial stockpiling of a wide range of materials.

The multi-function tracked radial feeder stacker combines onsite track mobility with the high stockpiling capacity of a radial conveyor, switching from track to wheels in seconds. The design allows for the wheels to be fully folded for transport, delivering true site-to-site portability.

The ST80TF features a large capacity hopper (5.75 cu.m. or 7.5 cu. yd.) with adjustable height, ensuring optimized operational efficiency on the job. The ST80TF Radial brings the best mobility, protability and production to sites around the world.

HIGH CAPACITY HOPPER

Over 7 cubic yards allows for larger amounts of material to be directly loaded into the hopper

ON THE LEVEL
Level Gauge allows operation on uneven ground

FAST TRACK SWITCHING

Hydraulic raise/lower arm allows switch from track to radial mode in seconds

MORE TRACTION
Tires have aggressive tread patterns for better traction in rough terrain

TOOL FREE TRANSPORT

Unique design allows for the wheels to be folded for transport, delivering true portability for operators moving site to site

Engine - Power Unit	100 Hp (74.5 kW)
Conveyor Length	80' (24.38m)
Hopper Capacity	7.5 yds ³ (5.75 m ³)
Stockpile Capacity	2,035 yds ³ (1,556 m ³)
Stockpile Height	31' 1" (9.47m)
Feeder Belt Width	36" (900mm)
Feeder Conveyor Length	11' (3.35m)
Production	800 US TPH (725 mtph)
