

TS4065

HIGH CAPACITY STOCKPILING

The McCloskey™ TS4065 sets the standard for high capacity, high mobility stackers. The TS4065 comes with an impressive array of features, including a large hopper, full-length guarding, an easily accessible engine bay, an impact section under the feed boot and an adjustable feed boot height. When the TS4065 arrives at a job site, it takes only a few minutes to set up and get to work. As is the case with all McCloskey stackers, the TS4065 features a setback design for maximum stockpiling.

At 65' long, the TS4065 is the entry point for McCloskey tracked stackers, which are also available in 80', 100' and custom lengths.

TRACKS

For maximum mobility, tracks allow the stacker to be easily moved on its own.

LARGE HOPPER

The large hopper allows operators to make the most efficient use of the TS4065's high volume capabilities.

TRANSPORT FRIENDLY

At only 2.23m wide, the TS4065 is easily transported between job sites.

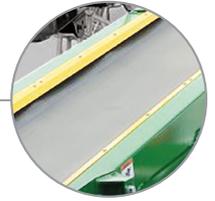

STOCKPILING ABILITY

At 40" wide and 65' long, the conveyor is able to handle large amounts of product.

FULL SAFETY GUARDING

Full-length flashing minimizes nip points, increasing safety.

OPTIONAL WIRELESS REMOTE

Provides remote maneuverability and enhances safety for moving freely to the best location.

Engine - Power Unit	Diesel or Dual Power Option
Transport Height	2.5m (8' 3")
Transport Length	12.1m (39' 9")
Transport Width	2.34m (7' 8")
Weight	10,500 kg approx. (23,148lbs)
Stockpile Height	7.88m (25' 10")
Stockpile Capacity	902m ³ (1180 yd ³)
Production	510 TPH
