EXTENSIVE TECHNICAL SERVICE & SUPPORT

McCloskey's Dealer Network ensures that customers are supported by factory trained field service technicians for After Sales Support. Extensive training is crucial to the proper maintenance of equipment. McCloskey's trained service technicians familiarize the operators handling the equipment to ensure customers receive as much use and value out of their purchase.

After Sales Support begins the day you purchase your McCloskey equipment and through the product's life cycle. Breakdowns mean downtime. All machines break down at some point. The support and service offered in response is what makes McCloskey a trusted partner - from commissioning to consignment.

Our McCloskey Dealer Network can also provide information and services in the following areas:

- ▶ Application of the Equipment
- ▶ Predictive and Preventative Maintenance Practices
- ▶ Common Repair and Maintenance Solutions
- ▶ Troubleshooting
- ▶ Repairs

To find your closest supporting Dealers, please refer to our website: <https://mccloskeyinternational.com/>

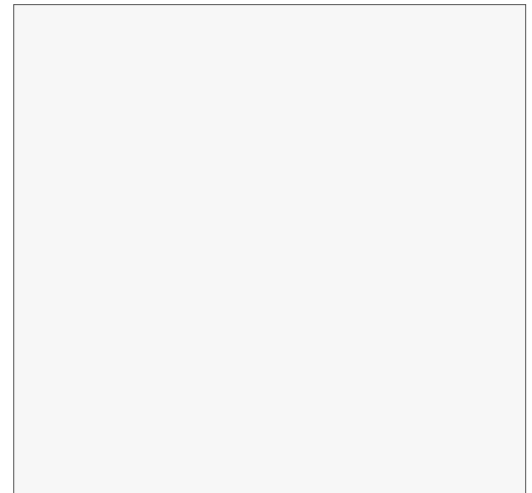

CONTACT YOUR McCLOSKEY DEALER
