

Have an Eye for Quality?

McCloskey International is looking for a Supplier Quality Coordinator to Build Our Team!

McCloskey International is a world leader in the design and manufacture of innovative screening, conveying, crushing, and trommel equipment. This heavy industrial equipment is used in the topsoil, composting, recycling, landscaping, construction, demolition, and aggregate industries. Our Peterborough team consists of over 300 dedicated employees who work to consistently create top-quality products and deliver them to our satisfied customers world-wide.

McCloskey International is part of Metso Corporation, a world-leading industrial company offering equipment and services in the mining, aggregates, recycling and process industries. For more information, please visit www.metso.com.

This is a permanent, full-time opportunity. We offer competitive wages, health and other benefits, and a pension plan. McCloskey International offers not just a job, but a career.

Job Summary

The priority for the Procurement team is the creation of value and competitive advantage by reducing total cost and improving supply chain performance.

The Supplier Quality Specialist will play a pivotal role in developing a world class supply base by developing processes and building collaborative working relationships with the supply base to ensure the delivery of the highest quality products and components. This position works under both general and specific direction and reports to the Sourcing Manager.

Job Duties

- To manage the Quality function with approved suppliers, including the implementation of traditional quality assurance activities such as parts and process inspection and approval.
- Develop and implement incoming goods quality inspection processes to support business needs and ensure alignment with industry standards.
- Facilitate regular communication between the manufacturing plant and suppliers to resolve supplier quality related issues as required, ensuring appropriate corrective action plans are documented from suppliers to address discrepant materials when they occur.
- Develop procedures to measure and record supplier quality performance and drive appropriate improvements to meet key performance targets.
- Providing technical guidance on Quality related matters to others within the Supply Chain structure

- Complete any special projects as required. May be assigned to other areas of Operations, based on business or customer requirements.
- Works in compliance with all Administrative, Health & Safety policies and procedures as per legislative requirements and as outlined in Company policies and those specifically required by various clients.

Job Requirements

- Two to five years of experience gained in a similar role.
- Technical or post-secondary education is preferred.
- Demonstrable experience using value added quality principles and facilitating improvement throughout the quality assurance process, by utilizing practical problem-solving techniques such as 8D, Cause & Effect analysis, etc
- Excellent verbal and numerical skills.
- Proficient in Microsoft Office.
Proven ability to communicate effectively at all levels within the business.
- Key Competencies to be assessed include:
 - Communication
 - Quality orientation
 - Customer focus
 - Planning & organization.

Please note: The above statement reflects the general details considered necessary to describe the principal functions of the job identified and shall not be considered as a conclusive description of all work required in the job.

McCloskey is an equal-opportunity employer and is committed to the principles of diversity and employment equity. McCloskey strives to ensure that our workforce reflects the diverse nature of Canadian society.

McCloskey is also committed to developing inclusive, barrier-free selection processes and work environments. If contacted in relation to a job opportunity or testing, you should advise the member of the HR team in a timely fashion of any disabilities that requires accommodation measures in order to enable you to be assessed in a fair and equitable manner.

COVID-19 Statement: McCloskey International is dedicated to ensuring the health and safety of all our employees. We screen each person upon entry to the workplace and follow local Health Unit guidelines to ensure a safe working environment. Masks and distancing within the facility help to prevent any potential spread of illness, along with numerous other methods of reducing possible transmission.

Due to the current COVID 19 restrictions please do not visit any of our sites in person to request an application form. If you wish to be considered for this new opportunity and wish to be a part of a dynamic and international organization then please send your resume and cover letter detailing your suitability for the post by email hr@mccloskeyinternational.com or call us on (888) 588-8056 for more information.
