

## Love Putting Things Together?

### McCloskey International is looking for a Welder Fitter to Build Our Team!

McCloskey International is a world leader in the design and manufacture of innovative screening, conveying, crushing, and trommel equipment. This heavy industrial equipment is used in the topsoil, composting, recycling, landscaping, construction, demolition, and aggregate industries. Our Peterborough team consists of over 300 dedicated employees who work to consistently create topquality products and deliver them to our satisfied customers worldwide.

This is a permanent, full-time opportunity. We offer competitive wages, health and other benefits, and a pension plan. McCloskey International offers not just a job, but a career.

#### Job Summary

The Welder-Fitter is responsible for welding, assembling, fitting and installing metal pieces in accordance to relevant work orders.

#### Job Duties

- Read work orders and manufacturing standards, follows production drawings and assembly instructions;
- Study engineered drawings and blueprints, determine the materials required, and the planning of tasks;
- Assemble and fit metal sections to form complete units or subunits using tact welding and other fabrication methods;
- Set up and operate heavy duty metal working machines including torches, drills, dye grinders, hammers, levels, plasma cutters and overhead cranes;
- Perform all welding tasks and related fabrication and finishing processes;
- Rig, hoist, and move materials within worksite;
- Understand all quality requirements for products and meet those requirements;
- Make adjustments to meet precise specifications;
- Detect and report defective material to Supervisor;
- Complete any special projects as required. May be assigned to other areas of operation based on business or customer requirements;
- Observe all legislated H&S regulations (including OHSA & WSIB) as well as establish workplace safety procedures.

### Job Requirements

- Able to work in a fast paced, quality-production environment;
- Able to read and interpret documents such as safety rules, assembly, operating and maintenance instructions, blueprints, technical drawings and procedural manuals;
- Possess good communication skills and teamwork attitude;
- Strong mathematical and mechanical skills required;
- Willing to work overtime as required;
- Able to multi-task projects and meet production deadlines;
- Provide own helmet and certain trade tools;
- Have reliable transportation.

*In return for your contributions, we offer an environment that supports and recognizes your professional growth. In addition, we provide competitive compensation, including group benefits and retirement saving plan. We also offer a \$2 hourly premium for evening shift work.*

*Please note: The above statement reflects the general details considered necessary to describe the principal functions of the job identified and shall not be considered as a conclusive description of all work required in the job.*

**Due to the current COVID 19 restrictions please do not visit any of our sites in person to request an application form.** If you wish to be considered for this new opportunity and wish to be a part of a dynamic and international organization then please send your CV and cover letter detailing your suitability for the post by email [hr@mccloskeyinternational.com](mailto:hr@mccloskeyinternational.com) or call us on (888) 588-8056 for more information.
