

Love Putting Things Together?

McCloskey International is looking for a Assembly Handler to Build Our Team!

McCloskey International Limited is a world leader in the design and manufacture of innovative Crushing, screening, conveying & wet processing equipment used in the construction, recycling, landscaping & aggregate industries.

Job Summary

All Employees of McCloskey International are expected to contribute to and participate in the continuous improvement of our workplace. The Assembler is responsible for assembling and testing electro-mechanical subassemblies and systems to ensure all work meets or exceeds performance and quality requirements. Assemblers are expected to come to work prepared, on time and ready to contribute 100% to the team in a safe and conscientious manner. This position works under the direction of a Supervisor.

Job Duties

- Read work orders and manufacturing standards; follow production drawings and assembly instructions; receive verbal instructions regarding duties to be performed.
- Assemble, fit and install prefabricated parts to form subassemblies or finish products using hand and power tools.
- Position, align and adjust parts for proper fit and assembly and connect cables, tubes and wires.
- Connect component lead wires to printed circuit or routes and connect wires between individual component leads and other components, connectors, terminals, and contact points.
- Fasten parts together using bolting and riveting equipment or other fastening and joining techniques.
- Perform other assembly tasks such as cleaning parts and assemblies.
- Operate cranes and forklifts to transport or position larger parts as needed.
- Perform in-process testing and inspection to ensure parts and assemblies meet production specifications and standards. Inspect assemblies/sub-assemblies for proper quality before proceeding to next step in procedure.
- Make any adjustments and repairs as required. Perform work on reject units.
- Detect and report defective materials to the Supervisor.
- Organize parts and monitor stock levels.
- Keep work area clean and organized.
- Complete any special projects as required. May be assigned to other areas of Operations, based on business or customer requirements.

Job Requirements

Completion of a Secondary School education or equivalency is required along with a minimum one year previous experience in a similar position.

- Must be mechanically inclined and have an ability to read and understand detailed procedural manuals, blueprints, CAD drawings and diagrams.
- Experience using various hand tools.
- Strong mathematical, multi-tasking, and communication skills
- Previous experience with hydraulic systems is considered an asset
- Able to lift up to 25kg.

Due to the current COVID 19 restrictions please do not visit any of our sites in person to request an application form. If you wish to be considered for this new opportunity and wish to be a part of a dynamic and international organization then please send your CV and cover letter detailing your suitability for the post by email application_uk@mccloskeyinternational.co.uk or call us on 028 8774 0926 for more information.
